To be able to find requested information using databases.

Design Technology

Engineer.

This project teaches children about remarkable engineers and significant bridges, learning to identify features, such as beams, arches and trusses.

History

Frozen Kingdom:

This project teaches children about the characteristics and features of polar regions, including the North and South Poles, and includes a detailed exploration of the environmental factors that shape and influence them.

Art and Design

Innuit.

This project teaches children about the Inuit way of life, including some of their cultural and artistic traditions.

Environmental Artists.

This project teaches children about the genre of environmental art. They study how artists create artwork that addresses social and political issues related to the natural and urban environment.
